- Ukrainian

SUMMARY

iOS Engineer and **full-stack software developer** with experience building and maintaining production-level **mobile and web applications**. Skilled in **Swift/SwiftUI**, **TypeScript/Angular**, cloud infrastructure, and containerized environments.

WORK EXPERIENCE

OTTO GmbH & Co. KG.   [2024 - present]

iOS developer / Software Engineer

- Contribute to development and maintenance of OTTO's large-scale iOS application.
- Implement features using Swift & SwiftUI.
- Support backend functionality using Kotlin.
- Collaborate in agile squads and participate in code reviews.

T-Systems International GmbH [2023 - 2024]

Software Engineering Intern

- Built React/Next.js features for an SDV open-source project.
- Developed an Angular UI for a Mercedes-Benz project.
- Supported backend development in Python.
- Worked with Azure, Docker, Kubernetes, Terraform, CI/CD.

PROJECTS

Transcendence - Full-stack multiplayer web application, user authentication, chat, and profile management. (Angular, Nest.js, PostgreSQL, Docker).

Swifty Companion - SwiftUI iOS app integrating the 42 API and OAuth2, providing user profiles, skills, and project insights.

WebServer - Custom C++ HTTP/1.1 server with request parsing, configuration routing and error handling
